

Columbia Point

The *M/V Columbia Point* is an all weather 110 passenger, 64ft U.S. Coast Guard certified vessel used to provide support in the areas of academic research, educational programs and marine transportation charters.

This ADA accessible vessel is built with the environment in mind, incorporating such items as low wake wash, EPA Tier II green engines burning ultra-low sulfur fuel, biocide free anti-fouling paint, and zero discharge sanitary systems into the eco-friendly design criterion.

Features include:

- Large open deck with removable benches
- Bench style seating on the main and upper decks
- 46" LCD screen in the deckhouse
- Inside the deckhouse is one ADA accessible head
- Other comforts include a galley area with beverage service, microwave, and refrigeration
- Optional harbor narration and food service are also available
